Professional Summary:

Frontend Developer with 2+ years of experience building **scalable, responsive**, and high-performance web applications using **React.js, Next.js, TypeScript**, and **JavaScript**. Experienced in developing **reusable UI components, integrating REST APIs**, implementing state management with **Redux Toolkit**, and optimizing application performance. Passionate about building intuitive user experiences and continuously expanding expertise in modern frontend technologies.

Skills:

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, React Router, Material UI, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Databases: Microsoft SQL Server, MongoDB

Tools: Git, JIRA, Postman, VS Code

AI Tools: ChatGPT, Cursor AI, AntiGravity AI, Claude AI.

Experience:

CodingLimits Pvt. Ltd.

Software Developer (AI Frontend Developer) | Nov 2025 – Jan 2026 | Nellore

Project: MockWin.ai

- Developed AI-powered web interfaces using **Next.js, React.js, TypeScript, Tailwind CSS**, and **JavaScript**.
- Integrated **REST APIs** to manage interview workflows, candidate information, and AI-generated responses.
- Implemented **Speech-to-Text** and **Text-to-Speech** functionality using **React Speech Recognition** to improve user interaction.
- Built responsive, reusable, and accessible UI components following component-based architecture.
- Collaborated with **backend** and **AI teams** to deliver scalable frontend features and resolve integration issues.
- Leveraged **AI-assisted** development tools including Cursor AI, Claude AI, ChatGPT, and AntiGravity AI to improve development productivity.

PosGuru Pvt. Ltd.

React.js Developer | Oct 2024 – Apr 2025 | Chennai

Projects: Restaurant Panel, TillApp

- Developed scalable frontend modules using **React.js, Redux Toolkit, JavaScript, Material UI**, and **Bootstrap**.
- Built responsive dashboards for restaurant and retail management systems, improving order tracking and operational efficiency.
- Managed application state using **Redux Toolkit** and implemented reusable components for better maintainability.
- Integrated **REST APIs** for order management, menu updates, inventory, billing, and financial modules.
- Improved application performance by implementing **debounce** for search functionality, **reducing unnecessary API requests**.
- Collaborated with cross-functional teams in **Agile sprints** to deliver new features, **bug fixes**, and production enhancements.

ASU Technologies & Services Pvt. Ltd.

Software UI Developer | Apr 2023 – Aug 2024 | Hyderabad

Client: PureRED

- Developed **responsive** and reusable user interface components using **React.js**, **JavaScript**, **HTML5**, **CSS3**, and **Material UI**.
- Integrated **REST APIs** using **Axios** with proper loading states, validation, and error handling.
- Implemented filtering, searching, sorting, and **pagination** for large datasets to improve user experience.
- **Optimized** application performance by minimizing unnecessary re-renders and improving component efficiency.
- Collaborated with backend developers to integrate APIs and resolve frontend issues in an Agile environment.
- Used **Git** for version control and participated in **sprint planning**, code reviews, and feature deployments.
- Assisted in **SQL Server** stored procedures and **Python (Pandas)** for data validation and reporting activities.

Projects:

AI Chatbot Application

Tech Stack: React.js, JavaScript, Gemini API, Tailwind CSS

- Developed an AI-powered chatbot application using **React.js** by integrating the **Google Gemini API** to generate real-time conversational responses.
- Implemented asynchronous **API integration** with efficient request handling, loading states, and error handling to provide a seamless user experience.
- Designed a responsive and interactive chat interface using **Tailwind CSS** with reusable React components.
- Optimized application performance using React Hooks and component-based architecture to ensure smooth user interactions.

Swiggy Clone – Food Ordering Application

Tech Stack: React.js, JavaScript, Redux Toolkit, React Router, Tailwind CSS, REST API

- Developed a responsive Swiggy-inspired **food ordering** application using **React.js** by integrating live REST APIs to display restaurants and menu data.
- Implemented **Redux Toolkit** for efficient cart state management, including add, remove, and quantity update operations.
- Built dynamic routing, restaurant **search**, and **menu filtering** using React Router to enhance navigation and user experience.
- Developed reusable, responsive **UI components** using Tailwind CSS and optimized application performance using **React Hooks** and **component-based architecture**.

Education:

Master of Computer Applications (MCA)

Dr. Lankapalli Bullayya College

Andhra University, Visakhapatnam

2021 – 2023 | 82%
